

FUNDED BY AN AIR QUALITY IMPROVEMENT GRANT

FREE PROGRAM

FROM THE SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

Jurupa Valley and Mira Loma have the Worst Air Quality in Southern California

FREE Fireplace Retro-Fit Device

Homes in Jurupa Valley are burning tons of wood in wood burning fireplaces every year. This has created a significant pollution and air quality problem. However, as a conscientious homeowner, you can help to solve this problem. We will install a **HearthCAT™** retro-fit device in your wood burning Fireplace for **FREE**.

Wood Burning Fireplace with a HearthCAT

South Coast AQMD is offering **FREE** Retrofit Devices to homeowners to eliminate smoke pollution from their wood burning fireplaces.

The **HearthCAT** Technology in a Fireplace

The **HearthCAT™** wood burning Fireplace retro-fit is recommended by the US EPA.

ELIMINATE WOOD SMOKE

Wood burning fireplaces in Jurupa Valley pollute the air we breathe and cause “no-burn” days. The **HearthCAT™** Retro-Fit System is the only solution to this major environmental problem.

The **HearthCAT™** Retro-Fit Technology reduces harmful wood smoke particulate pollution by 80% while reducing VOC's and carbon monoxide by 90%. It's professionally installed and actually increases the heating efficiency of the fireplace. The **HearthCAT™** was awarded the prestigious US EPA Clean Air Excellence Award for New Technology. **NOT VISIBLE WHEN INSTALLED!**
